

Splash MD

Hardtail | Ladies Sport XC | Alloy | 29"

€569,00

Splash MD is designed around Silverback's benchmark hydro formed alloy frame. The Splash MD is the sister to the Stride MD bike. The frame features a tapered headtube, integrated kickstand mount, full length external routing, 27.5" wheels and trickle down trail geometry. Splash MD is fitted with an SR Suntour XCE28 suspension fork with 100mm of travel, and cable actuated mechanical disc brakes. A form fitting SLD saddle makes riding more comfortable for ladies on the Splash range.
