Splash SE is a Silverback Ladies Design platform (SLD) featuring a hydro formed alloy frame with tapered headtube, integrated kickstand mount and full length external routing. Running on 26" or 27.5" wheels it has a full compliment of rack & fender mounts and trickle down trail geometry. Splash SE is fitted with a fit-and-forget Zoom HL565 suspension fork with 100mm of travel. To compliment the Splash hydro formed frame, the components on the SE are durable and carefully selected to give the rider a quality, well priced MTB, in line with SB's BIC ethos.
