

# Stratos AL 3

Dual-Suspension | Cross-Country | Alloy | 29"

€1.851,00

Stratos AL 3.0 is the mountain bike recreational riders have been waiting for. Silverback's POP geometry makes it a strong climber and a balanced confident descender. The linkage driven asymmetric single-pivot suspension is tuned for optimal small bump sensitivity and big-hit compliance without power delivery penalties. The suspension curve is designed to offer full use of available travel. The Stratos AL 3.0 is based on the ground-breaking Stratos CF race-machine but adapted to offer a more capable bike for the everyday rider. Trails, XC or marathon, the Stratos AL is the right mountain bike for the right price for the job.
