

Stratos CF 2

Dual-Suspension | Cross-Country | Carbon | 29"

€3.118,00

The CF2 brings unbelievable value to the carbon Stratos range. Bred for the most demanding courses the world over, the Stratos was designed from the ground up to trounce any terrain. Asymmetric design dissipates load based on impact magnitude and suspension position, alleviating stresses where it's most concentrated. Paired with 12-Speed Shimano SLX 12spd, 120mm Fox 34 Rhythm fork, and Surface 23mm alloy wheels, it sets the scene for competitive racing. CF2 is the perfect race bike for unsponsored riders. Sharing a frame with the top end Stratos, the CF2 specification is chosen to carefully balance quality, weight and maximum service life. Oversized tapered pivot and Burst Flex suspension makes for a stiff, responsive, extremely light and agile race bike. The included dropper post opens a new world of riding possibilities and line choices. Stratos CF2 leaves nothing to chance.

SPECIFICATIONS.

Crankset	Shimano SLX, Hollowtech, 34t
Cassette	Shimano SLX 12spd, 10-51T
Rear Der	Shimano SLX M7100, 12spd
Shifters	Shimano SLX 12 spd shifter
