

Strela Elite

Sport | Road | Alloy | 700C

€1.499,00

The newly redesigned Strela range is a great option for those who want a high-performance bike without the implications of carbon fibre. Strela Sports a sophisticated triple butted, hydro-formed alloy tube set with smooth welds, that boosts pedaling stiffness for efficient power-transfer while still offering a comfortable experience for long days in the saddle. A premium SB Carbon fork alleviates some of the road surface imperfections for less fatigue over longer rides. New deep section tubeless compatible Surface alloy wheels are lightweight, stiff and strong, offering aero advantages over box section rims. These rims also accommodate wider tyres, up to 700x32c. The new ergonomic flat top bar also ensures a more natural shoulder and arm position, promoting comfort and control. The Strela range is designed to be inline with Silverback's BIC ethos - offering you the best quality and most bike for your money.

SPECIFICATIONS.

Crankset	Shimano 105 FC-R7000, Double, 11spd, Hollowtech, 50/34t
Cassette	Shimano 105 CS-R7000-10 11spd, 11-30t
Rear Der	Shimano 105 RD-R7000, 11spd
Shifters	Shimano 105 Combination
