

Superspeed 2.0 Eagle

Hardtail | Cross-Country | Carbon | 29"

€1.799,00

The Superspeed is part of our flagship race-ready 29er carbon performance hardtail range. Our Monoburst technology has the seat stays joining the top tube without connecting to the seat tube, helping to stream the bump forces into the top tube and allow the seat tube to flex a little for added traction and comfort. This frame is stiff and efficient but also offers vertical compliance in the chainstays, top tube, seat tube, and down tube to maintain good comfort levels for a marathon and cross country racing. Short chainstays are possible with the single ring only setup and create an agile and nimble race machine, ready for any course that comes its way. Top carbon materials combined with a careful layup process ensure each frame is performance ready and super light. A super light integrated chainguard ensures the chainstays on during the roughest trails encountered.

SPECIFICATIONS.

Crankset	SRAM NX Eagle DUB, 32T
Cassette	CS PG1230 Eagle 11-50T
Rear Der	SRAM NX Eagle 12spd
Shifters	SRAM NX Eagle trigger
Bottom Bracket	SRAM BB DUB BSA PF92
Fork	Rockshox Judy Silver TK, Solo Air, 51mm Offset, MXL Stealth Boost. 100mm travel.
Hubs	SUNRingle sealed bearing hubs
Rims	Crest S1 29, 32H
Tyres	Maxxis Crossmark II, 29" x 2.25" Tubeless Ready
Seatpost	SBC Carbon 27.2mm, Ti Bolts
Saddle	SBC SRN-Ti rails
Handlebar	SBC Alloy butted, 31.8mm, 9deg Back Sweep
Stem	Die-Cast alloy, 6deg Rise, 60mm/S, 70mm M/L
Frame	SB Proprietary Advanced Dynamics Carbon 29" Hardtail, Tapered 1-1/8"-1.5" Headtube, Pressfit BB Shell, MonoBurst, 148 x 12mm Boost Thru Axle Integrated Dropouts System, Replaceable Alloy hanger, Internal Cable Management System, 1 x only Frame
Brake set	Shimano BRM315 Hydraulic Disc brakes
Weight	11.77kg
Weight Limit	120kg - combined weight of bike and rider (including all kit).
Travel	100mm
