# €4.873,00

Hardtail | Cross-Country | Carbon | 29"

The Superspeed is our flagship race-ready 29er carbon performance hardtail. Our Monoburst technology has the seat stays joining the top tube without connecting to the seat tube, helping to stream the bump forces into the top tube and allow the seat tube to flex a little for added traction and comfort. This frame is stiff and efficient but also offers vertical compliance in the chainstays, top tube, seat tube, and down tube to maintain good comfort levels for a marathon and cross country racing. Short chainstays are possible with the single ring only setup and create an agile and nimble race machine, ready for any course that comes its way. Top carbon materials combined with a careful layup process ensure each frame is performance ready and super light. A super light integrated chainguard ensures the chainstays on during the roughest trails encountered.

## SPECIFICATIONS.

Crankset	SRAM X1 Carbon, 34t, Black
Cassette	SRAM GX Eagle 12 Speed 10-50t, 500% Ultra-wide Range
Rear Der	SRAM XX1 Eagle, Black
Shifters	SRAM XX1 Eagle 12 Speed, Black
Fork	Fox Factory 32 Float Stepcast, FIT4, w/Remote Lockout, Boost 110
Hubs	Stans Neo
Rims	Stan's Crest CB7 Carbon
Tyres	Maxxis Crossmark II 29x2.25", Foldable, Dual Compound, 60Tpi. Wide XC. Tubeless Ready
