

User's Guide

The right product is selected based on the length of the finger and the stress during use.

You can choose between a loose fit (easy to put on and more comfortable when dry) or a close fit (more comfortable when wet). With the help of the buckle system, it can be attached to the shorts, so it does not move.

Effectively protects against solar radiation. Practical for water sports, in the water and on the beach.

Its UV filter properties are due to the density of the fabric fibers, which provides long-lasting protection, even after washing.

UPF (Ultra Violet Protection Factor) is a standardized sun protection factor number used worldwide.

It shows the protection factor of the clothing products, i.e. the ratio of filtering out UV rays.

According to the standard, UV rays are min. They have to filter out 95% of it. For example, the 50+ factor means that the product protects against UVA rays min. 95%, UVB rays min. It filters out 98%.

Protects against UV radiation even when wet!

Does not irritate the skin. The UV filter t-shirt protects against skin irritation when using a surfboard or bodyboard.

Thermal lycra (for use longer than 2 hours) is made of fleece, neoprene or a combination of the two. Winds faster than 15 km/h can make sports uncomfortable. In such cases, wear a model made of neoprene!

The protection of children is of the utmost importance. Children's skin is fragile, and their defense system develops only after the age of 3. The same solar radiation has two to three times more harmful effects on children than on adults. Therefore, their effective protection is important.

In addition to the T-shirt, additional protective equipment and precautions are also necessary: sunglasses, hats, regular use of sunscreen, regular hydration, etc. Store in a dry, well-ventilated place. Avoid sharp, pointed objects that can cause the clothes to tear.

The manufacturer and the distributor do not guarantee any damage caused by improper use.

Machine washable max. at 30°C. It cannot be bleached. It cannot be dried in a tumble dryer. It cannot be ironed. It cannot be dry cleaned.
