Sew one end of the stem to the bottom of the margarita cup and the other end to the center of one of the cup bases. Then sew the cup bases together. Attach eyes between rnds 11 and 12. Sew on the margarita top inside the cup along rnd 12. Stuff the cup before you finish sewing all the way around. If you would like your margarita to stand up, you can place a wire inside the stem and a small cardboard circle between the base layers.
