Fast Flying Geese - "Heart" Method

Select the appropriate size Flying Geese unit and follow the cutting chart printed on the ruler. Yield will be four (4) geese units.
NOTE: You must use a full 1/4" seam allowance for this method. Using a scant 1/4" may leave excess fabric from the overlapping squares in the tip of the goose.

A	½" x 1"	2 ¾"	1 ¾"
B	1" x 2"	3 ¾"	2 ¼"
C	1 ½" x 3"	4 ¾"	2 ¾"

1. Draw a diagonal line on the wrong side of the four (4) small squares.

2. Place two of the squares (right sides together) on opposite ends of the large square, overlapping the corners of the smaller squares.
3. Sew 1/4" from the line on both sides of the line. Cut on the line.

3a. Fold back the smaller triangles to make a "heart". Press.

4. Place the remaining two small squares on each of the "heart" units as shown. Sew 1/4" from the line on both sides of the line.

4a. Cut on the line and fold back the small triangles. Press. Trim each unit to perfection with the Ultimate Flying Geese Tool as in the previous technique.
Yield 4 flying geese units.

"Flip Back" (or "Fold Back") Method

This method makes one-at-a-time Flying Geese units. Cutting measurements are oversized to allow for trimming down.
