sanEntero

providing support for intestinal health with probiotics, biotin and fiber.

24,6 g e

60 Tablets

Serving size (2 tablets) contains:

Vitamins	%NRV*		
Biotin	50 µg (100%*)	<i>Lactobacillus rhamnosus</i>	**
		<i>Lactobacillus acidophilus</i>	**
		<i>Lactobacillus casei</i>	**
Minerals		<i>Lactobacillus paracasei</i>	**
Zinc	10 mg (100%*)	<i>Lactobacillus salivarius</i>	**
Selenium	55 µg (100%*)	<i>Bifidobacterium breve</i>	**
		<i>Bifidobacterium bifidum</i>	**
		<i>Bifidobacterium lactis</i>	**
Others		<i>Bifidobacterium infantis</i>	**
Acacia fiber powder	300 mg	<i>Bacillus subtilis</i>	**
		<i>Enterococcus faecium</i>	**

* Reference amount of the nutrient reference values (Ger. NRV)

** 11 bacterial cultures with a total of 1.1×10^{10} colony-forming units (CFU) per 2 tablets.

Ingredients:

Rice starch, acacia fibre powder, zinc gluconate, *Lactobacillus rhamnosus*, *Lactobacillus acidophilus*, *Lactobacillus casei*, *Lactobacillus paracasei*, *Lactobacillus salivarius*, *Bifidobacterium breve*, *Bifidobacterium bifidum*, *Bifidobacterium lactis*, *Bifidobacterium infantis*, *Bacillus subtilis*, *Enterococcus faecium*, release agent calcium salts of fatty acids, coating agent shellac, potato starch, sodium selenate, D-biotin.

Directions:

Take 1 tablet twice daily with sufficient liquid, ideally half an hour before a meal. Do not exceed the recommended daily intake.

The intestine is home to a large number of different bacterial strains - the **intestinal flora** or **microbiome**. A healthy intestinal flora contributes significantly to physical and mental well-being. It promotes and supports:

- a healthy functioning digestion
- a strong immune system
- protection against allergies and osteoporosis
- protection against arteriosclerosis by reducing serum cholesterol
- improved lactose tolerance

Internal and external influences interact with the gastrointestinal tract and can unbalance this sensitive intestinal flora. These influences include :

- intake of medication (antibiotics)
- unbalanced nutrition and weight fluctuations
- intestinal infections and indigestion
- stress and heavy mental and physical strain

sanEntero tablets support a disturbed intestinal flora:

- probiotics - a combination of 11 probiotic bacterial cultures in a highly concentrated form.
- the individual bacterial strains are protected against stomach acid and bile and can therefore develop their function in the large intestine.
- prebiotics - acacia fiber powder (indigestible fiber) to support the intestinal flora.
- biotin contributes to the maintenance of healthy mucous membranes.
- selenium and zinc contribute to the protection of cells from oxidative stress and to the physiological function of the immune system.

Free of:

lactose

yeast

gluten

sugar

dyes

preservatives

Store dry, protected from light, and between 15 °C and 25 °C.

Manufactured for:
sanPharma GmbH
