### **No. 10 Mess Dress - Female**

102. *2006 Army Dress Regulations are below, and are correct in what should be worn, and of course will be updated to reflect that in future females will serve in the infantry and therefore in the Regiment :*

'Whilst it is unlikely that women will be commissioned into the regular elements of the Regiment, they may well hold a commission in the TA or Cadet Forces. Should such officers wish to wear No 10 Dress they will use the Regimental pattern of the Adjutant General's Corps for the ballgown and may wear the Regimental Mess jacket (scarlet with blue facing) as described above. However, the wearing of the jacket by non-regular commissioned officers in the Regiment is not mandatory because of the considerable expense involved'.
