Style, Quality, Protection

We produce top-notch automotive accessories and a range of innovative products, such as universal and custom-fit floor & cargo liners designed for cars, trucks, SUVs, and more.

Our products are designed by our award winning team of engineers with more than 30 years of experience in the automotive aftermarket industry. Keeping to our philosophy of "Style, Quality, Protection." all 3D products are manufactured in our own facilities in Taiwan and China, with future plans to open another manufacturing location here in the US.

Quality Product Development

Our dedicated product development team tirelessly researches new vehicle applications as they hit the market. They are responsible for our products retaining their extremely precise fitment, while covering a wide variety of vehicles. With the latest in 3D scanning and CAD technology, they capture the exact measurements of the vehicle to provide our research and development team with the highest quality information.

Our scanning techniques and attention to detail help us to ensure the highest quality fitment for vehicles on the market today. If you're looking for style, quality, and protection, look no further than 3D MAXpider® mats.

**Professional
Laser Measuring**

Our professional tech-team designs every individual floor mat to perfectly fit your vehicle.

**MAXpider®
Global Awards**

The unique stiff fibers are able to firmly grasp the carpet, retaining the quality of each vehicle's interior and showcasing the exceptional temperaments of the car.

Waterproof

Our digitized, three dimensional design is measured to the exact cabin contours of each vehicle, including raised edges that give maximum coverage and protection for the car's interior, defending against water and any other spill.

Light-Weight

Easy to install and simple to remove.

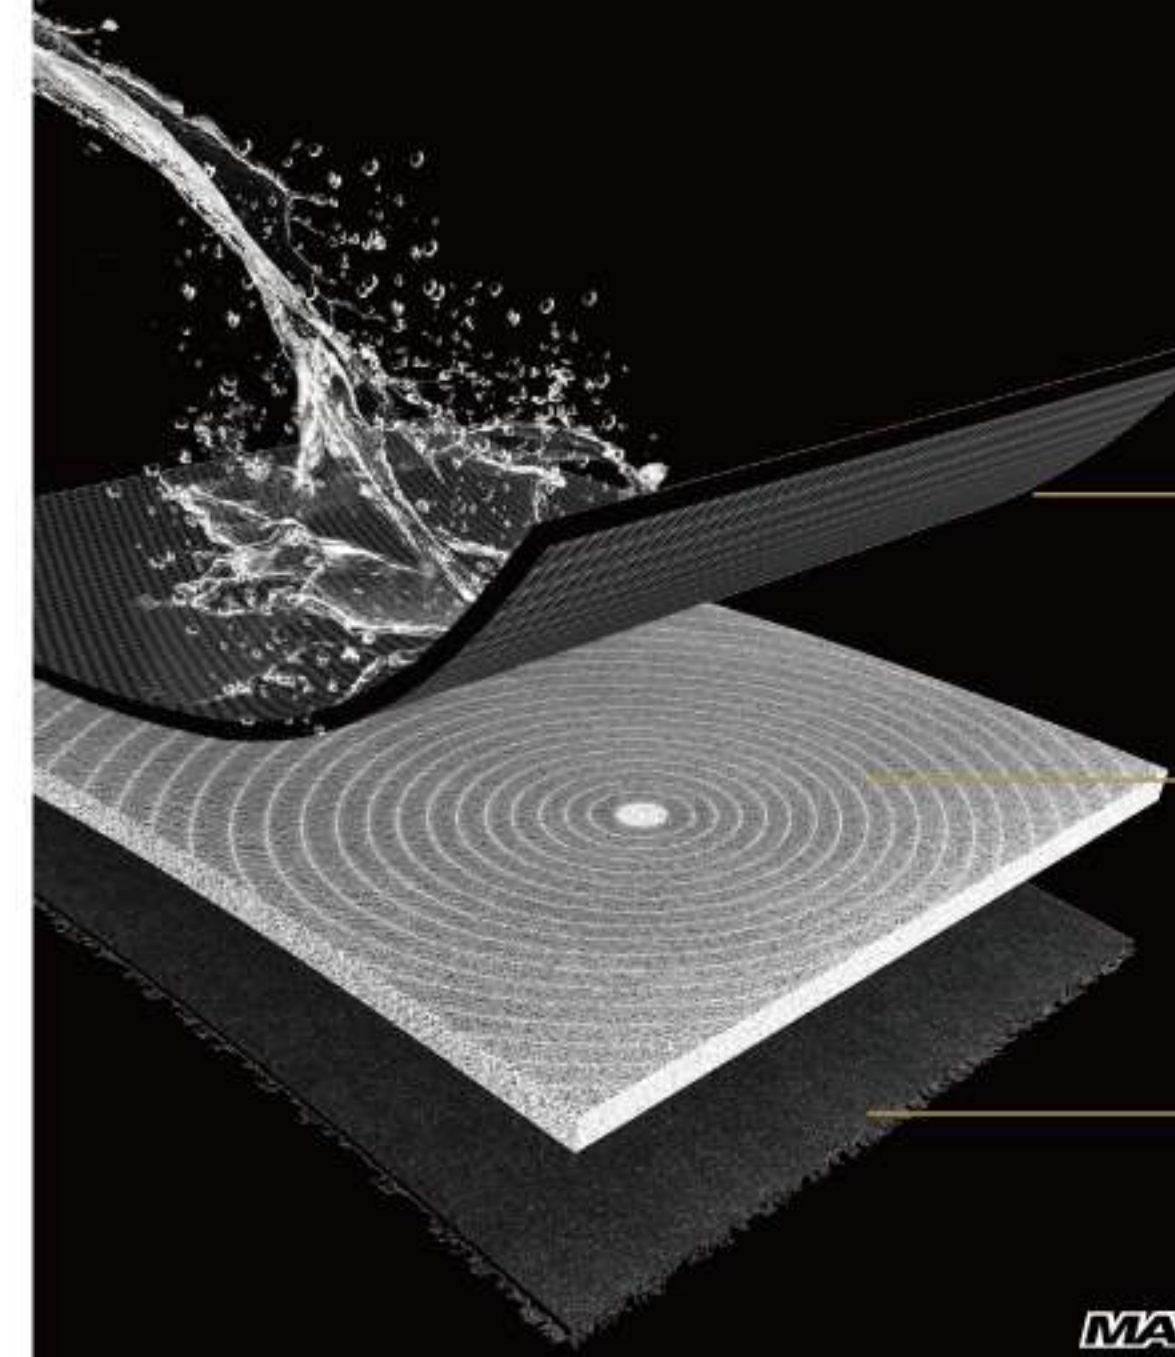

Classic Colors

Black, Gray, Tan
Colors that compliment your vehicle's interior.

Building the perfect fit floor liner for your vehicle

**Keeping your interior clean
while looking great.**

MULTI-LAYER DESIGN

Surface layer
Upscale design

Inner layer
Comfortable, lightweight,
and easy to install and remove

Bottom layer
Stiff Fibers grip the carpet
and keep the mat from
sliding around

Waterproof, easy to clean

Does not damage the original floor

Quick installation

1. Set up the base mat

Remove the AirCapsule from the box. Unroll and spread out the base mat. Unzip the upper shroud from the base mat. Roll the upper shroud off of the base mat, exposing the area to which base mat attaches to the upper shroud.

2. Place the cover over the vehicle

Pull the vehicle on to the base mat. Unroll the upper shroud over the vehicle. Pull the bottom of the upper shroud until it meets the basemat. Place the fan in place, making sure the Hook-and-Loop patches is fully attached.

3. Inflate for storage

Zip it closed. Plug in the fan and you are ready for short or long term storage. Zip the upper shroud to the basemat. Plug the fan into the adaptor provided. The AirCapsule should take just a couple of minutes to inflate. Once it is fully inflated, place the filter in the opening surrounding the fan.
