H/C-100

Paste Haze Remover

General Description

H/C-100 is a paste ghost/image stain remover that is designed for all ink systems. H/C-100's blend of water-based alkaline cleaners and solvent active detergents completely clean the mesh of stains.

H/C-100 is designed to work fast, which greatly increases screen turn-around.

ADVANTAGES

- Creamy Paste
- Fast Acting
- Biodegradable / Drain Safe
- Low Odor
- Low VOC (Volatile Organic Compound)
- High Load Capacity to Reduce Usage
- Non Flammable
- Mesh Safe
- Ideal for use on Multiple Deep Stains
- Contains a Proprietary Mesh Protector

Quick Tip:

Flood rinse (hose pressure) the screen prior to the high pressure step.

This will eliminate the product from being atomized in the air (blow back)

**Use of a High Pressure Unit Greatly Increases Product Performance.*

Application

Step 1. Apply H/C-100 to both sides of the screen.

Step 2. Scrub screen with non-abrasive pad or brush. Allow screen to dwell up to 10 minutes.

Step 3. High pressure rinse - starting at bottom.

Packaging

1 quart

1 gallon

5 gallon pail
