FAQ

1. How to make sure the headphones have been fully charged?
Put the headphones into the charging case, if the headphone status LEDs are glowing this means they have been fully charged.
2. Why won't headphones turn on?
Check if your headphones have enough battery life. If not, please charge them for at least 30 minutes.
3. Why won't the headphones connect to my cellphone, or take a long time to connect?
Put the headphones into the charging case, close the lid and wait for at least for 5 seconds, click the device name in your settings, the devices have connected correctly to the phone.
4. Why won't the headphones make phone calls?
The headphones are without microphones or phone call functions.
5. Why is the Bluetooth connection not stable and/or experience some interruptions?
1) Try shortening the distance between your headphones and the device. Avoid solid barriers in between you and the device.
2) Remove any devices causing interference sources, such as Wi-Fi and GPRS.
3) Please make sure the Bluetooth antenna of your device is not blocked.
6. Why can't the volume be adjusted by the cellphone buttons when playing soothing sounds in 1MORE MUSIC APP?
The soothing sounds are stored in the flash of the headphone which can be adjusted only via the APP.
7. The headphones will be disconnected from the cellphone when out of wireless range. They cannot restore the connection after returning back into the wireless range, how to solve it?
Click the device name in the cellphone pairing list to connect again.
8. I feel uncomfortable when wearing the headphones, how to solve it?
This is mainly because the size of ear tips and your canals are not snug, we suggest trying smaller ear tips.
