These days, a solid hair care routine consists of so much more than just shampoo, conditioner, and the occasional styling gel or spray. Shaeri Multi-Use Care Oil, how do we use thee in our beauty routine? Let us count the ways. But seriously, there are endless options for employing this fragrant moisturizing blend. It can treat dry ends, hydrate your body post-shower, or even soften the skin on your face. And in BDG Executive Beauty Director Faith Xue’s case, it’s a lifesaver for her “parched, over-processed hair,” but also works just as well for fine hair — the five vegetal oils sink in quickly without weighing hair down, leaving strands feeling soft and silky. True to its name, the product even found another use in her routine: Xue says you can also “use it as a deep conditioning treatment,” giving you just one more reason to invest in it.
