## The 7 Best Wine Fridges and Coolers for Perfectly Chilled Wine Every Time

Best for Small Spaces: Vinotemp 7 Bottle Freestanding/Built-In Wine Refrigerator

Any [wine lover](#) can benefit from having a fridge dedicated to their vino. Whether you want to show off your curated wine collection or you're just running out of room in your [regular refrigerator](#), a wine fridge will keep your precious bottles safe in a temperature-regulated space. And since [drinking wine at the proper temperature](#) can make all the difference in how it tastes (whites should be kept cooler than reds, but you already know that), a wine fridge can also help you make sure your bottles aren't fluctuating in temperature every time your home or apartment does.

Not every home has room for a bulky cube-shaped appliance, and that's where this slim single-zone option comes in handy. It'll seamlessly fit into any narrow space in your kitchen or bar area, and it holds seven wine bottles stacked on top of each other. "It takes almost no space away from the kitchen," wrote one shopper. Other customers noted that they love its sleek, modern appearance. "It fits perfectly underneath my kitchen counter, on the side," wrote another person. "The mirrored front is also very pretty and picks up its surroundings very nicely."
