# KBIS Products

**1.** Launching at KBIS 2017, the new Designer Series 300 Bottle Dual Zone Wine Cooler from **VINOTEMP** is only 30 inches wide and holds 300 bottles of wine in two temperature zones, nearly doubling the storage capacity of other wine coolers available in the U.S. *Booth S4467*

**2.** The SpaLet AT200 integrated bidet toilet from **DXV BY AMERICAN STANDARD** includes a deodorizer with a replaceable cartridge, a sleek and simple elongated bowl design and an automatic open/close seat. *Booth W1547*

**3.** **GROHE** SmartControl technology lets the user choose the outlet, the water flow and the temperature as desired. TurboStat technology delivers water at the desired temperature within a fraction of a second, and CoolTouch prevents scalding. *Booth W1547*

**4.** The **EZ LEVEL** Super Clamp can align framed cabinets and fillers in seconds, and it opens to 4.5 inches. Made of lightweight, brushed aluminum, these clamps will last a lifetime. *Booth S4094*

The Anthem Hidden Corner Overhang support from **FEDERAL BRACE** extends from the corner of the base cabinet to support that awkward and always expansive overhang of an L-shaped counter. Short down flanges fastening to the inside of the cabinets will main out of the way of cabinet drawers and hardware. *Booth S5228*

**6. RE-BATH** introduces its proprietary Durabath French mocha natural stone, which is harvested from 3,000-year-old rock quarries around the world. It is a solid stone that will not fade or discolor and is available in large-scale groutless panels that are easy to install. *Booth S5285*

**7.** Fusion Finishes on MDF by **SUPERIOR CABINETS** is an innovation in cabinetry that offers customers a decorative hand-crafted finish on MDF, without the high cost and inflexibility of painted wood cabinets. Fusion cabinets are one-piece doors made from MDF and stained and finished with a handcrafted chalk technique to give an authentic real-wood look. *Booth S4122*

**8. HERITAGE CONTEMPORARY CABINETS** introduces a contemporary line with 24 custom colors and a wide variety of accessories. Contemporary collections are project/commercial/volume-based orders. *Booth S4698*
