

MODULAR RETAIL WINE RACKING

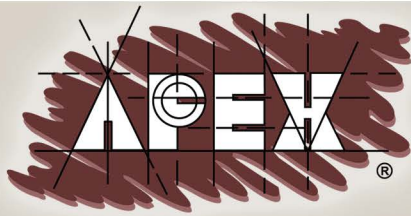

Personalized local design, installation and service.

Apex Wine Cellars has been manufacturing high quality wine racking for over 20 years. We are now excited to introduce our new line of retail racking! These modular racks are made of durable Malaysian Mahogany and are built to last. Our retail racks are specifically designed to maximize product exposure, make bottles more easily accessible for customers and, in turn, increase product sales. A wide selection of wall racks and freestanding islands allow you to combine our modules to maximize bottle capacity and create displays that are completely unique to your store.
