EL-200BAC to EL-200ZZ-B WINE SHELVES INSTALLATION INSTRUCTIONS

This wine cooler should be serviced by a qualified technician.
Be sure to have the unit *unplugged* while repairing the unit.

The horizontal bar, in which the rack sits on, is attached to the vertical bar that runs from top to bottom. By removing that horizontal bar, it will let you remove the vertical bar and allow you to insert the EL-200BAC shelves into EL-200ZZ-B unit.

Uninstall the Zig Zag racks

You can remove the screws to remove the horizontal vertical bar.

This is where the 200BAC shelf will slide into.
