

HIGHLAND LIVING

Who's it for?

ESSENTIAL HIGHLAND LIVING is a complete and unique, grain-free meal inspired by the highlands of Scotland. It is prepared with masses of delicious local and regional ingredients such as Aberdeen Angus beef, pigeon, quail and, of course, Scottish salmon. Designed for a normal level of activity, ESSENTIAL HIGHLAND LIVING is an obvious choice of variation for you to serve together with our other LIVING meals. HIGHLAND LIVING complies with our BOF principle, aiming to keep your dog's blood sugar levels stable while it savours the many tasty and healthy flavours from the Scottish Highlands.

Info: HIGHLAND LIVING does not contain chicken or potatoes.

BOF - A sensation within pet foods

Behavioral Optimizing Foods (BOF) is the principle honoring the many advantages of keeping the blood sugar levels stable throughout the day. Our high fresh meat content and the low preparation temperature means your dog gets exceptional nutritional values vs. mass-branded pet foods. The results with BOF are breathtaking. Serving ESSENTIALS positively will affect the mental balance of your dog. Some report seeing a dramatic transformation in the behavior, others note a smaller change, however improvement is always recorded.

Is this your first bag of ESSENTIALS?

With the first bag of ESSENTIALS comes a nutritional lifestyle change. Gradually phase in ESSENTIALS over 4-7 days, or make the change from one day to the next which works equally well. The most important point is to adjust daily portions to suit your pet. Overfeeding will result in softer stools. We therefore advise that you spend the first 2-3 weeks identifying the correct portion size. When your pet's stools are solid, and your pet feels satisfied, you have found the correct portion size. All you have to do now is enjoy all the benefits of ESSENTIALS.

TIP: Start by feeding your pet 10% less than usual and adjusting from there. You are always welcome to contact us for feeding advice and guidance.

The recipe

Best before

Date, time and unique production number can be found at the top of the bag.

Storage & packaging

The food should be stored in the bag, in a cool, dry place (5-18 °C). Away from direct sunlight, and with the zip carefully closed. This will ensure the last meal tastes as good as the first. The packaging is 100% recyclable plastic and should be disposed of with other soft plastics.
