

VEROBOARD. INSTALLATION INSTRUCTION

Step Light

WARNING

IMPORTANT: NEVER attempt any work without shutting off the electricity.

- Read all instructions before installing.
- System is intended for installation by a qualified electrician in accordance with the National Electric Code and local regulations. Consult with local inspector to ensure compliance.
- To reduce the risk of fire, electrical shock and injuries to persons, turn off power at main switch before installing or modifying the system.
- Retain instructions for future maintenance reference.
- Not complying with instructions could result in failure of the fixtures and voiding of the warranty.

INSTALLATION INSTRUCTION

1. Install 2"x4" junction box (1) (not provided).
2. Unscrew the Faceplate (5) from the fixture, using small socket head wrench in the hardware pack.
3. Connect fixture wires to the junction box wires as follows: Black fixture wires to black (Hot) J-box wire, white fixture wires to white (Neutral) J-box wire, and green fixture wire to Ground.
4. Place all wing and connectors back in junction box.
5. Put the Module (3) into the J-box, module lens downwards.
6. Secure Module (3) to J-box using 6-32 screws (4).
7. Fix the Faceplate (5) to the Module (3), align the location (7).
8. Fix the Faceplate (5) with screw (6), which is pre-assembled on the right side hole of the faceplate.
