

Installation Instruction for LED T5 Bar

READ INSTRUCTIONS AND REVIEW ALL DIAGRAMS BEFORE INSTALLING FIXTURE
CAUTION

1. Turn off main power at the circuit breaker before installing the fixture, in order to prevent possible shock. All electrical connections must be in accordance with local and national electrical (N.E.C) Standards. If you are unfamiliar with proper electrical wiring connections, please obtain the services of a qualified electrician.
2. Used for the LED Lamp.
3. Indoors use only.
