# Coffee Cup

2024 Catalogue

# Design in every sip

## Specialty coffee cups.

Arta Cafe's line of cups was created with the needs of coffee professionals in mind.

Each family of mugs has unique designs that reflect the quality of each piece's functionality, aesthetics, and production.

We use high-temperature ceramics as our production material to ensure every cup is resistant and can be safely used in ovens and dishwashers

# Customization

with ceramic decals

## Specifications

Ceramic decals are ideal to customize your pieces with your logo or illustrations. They are heat and water-resistant and can be washed in a dishwasher without chipping.

This service is available for orders of 48 pieces or more. The pieces can be different as long as the logo is the same color, size, and design.

The minimum order of decals is 50 units. However, we recommend ordering a print run of 100 units since this option offers a wholesale price.

Leftover decals can be saved for future orders.

To quote, you must send your **editable vectorized logo** (NOT image) to [proyecto@artaceramica.com](mailto:proyecto@artaceramica.com) indicating the desired measurements for the logo, the pieces to be customized, and its position on the piece.

## Important

**Payment of 100% of the decal is required to start the customizing process.**

Once the design of the ceramic decal has been authorized by the client, changes or returns are not accepted.

The colors of the decals may vary from the tone perceived on screens since they are fabricated with ceramic pigments.

Exact shades from Pantone or any other color library can't be precisely matched. Only similar shades are offered.
