

Maison Matisse

Set up by the fourth generation of Henri Matisse's family, Maison Matisse aims to keep the great French artist's legacy alive via imaginative product design inspired by his work. Cristina Celestino, the latest designer to collaborate with the brand, has created a capsule collection inspired by the 1911 still-life painting *Intérieur aux Aubergines*. Her work includes this rattan Colette armchair, upholstered in a specially designed fabric, as well as a matching sofa, a folding screen, a rug and a wallpaper.
