MAISON Matisse

Été indien wallpaper

MFW20IAACC015

Width 140cm - 55,1", Height 330cm - 130"
Composition 64%cotton, 36%viscose on TNT

Installation instructions

We recommend using a professional installation service.

1.   Cut the wallpaper to size, making sure to match the pattern between strips.

2.   The surface must be flat, smooth, sound, dry, clean, solid, and free of grease and dust with   normal porosity. Remove any flaking or poorly adhering paint, apply a plaster coating if needed.

3.   We recommend applying an oil-based primer to any type of surface (plaster, sheetrock, coating, wood, etc.) to ensure normal porosity.

4.   Draw a plumb line, then apply OVALIT ULTRA or similar paste to the wall and use a wallpaper brush to hang the wallpaper strips edge to edge without overlapping them.

5.   Gently smooth out any air bubbles without pushing too hard, so as not to warp the wallpaper. Cut away the edges of the strips.

The Été-indien wallpaper features a pattern that repeats every 132 cm.
