3

Our evening class will cover the same topics but are more demonstrative. This is a family style setting and we have bible study and group time with games and fun!

ABOUT US

Free Range Farm School is a nonprofit program that meets at a barn in Murrieta, CA. However, our classroom extends out to the garden, pastures, and twenty-six acres of land that has hundreds of fruit trees, cattle, horses, chickens, and other livestock. Our goal is to cultivate a passion for lifelong learners and to provide outdoor education to learn about where food comes from, farming, and farm animals.

FREE-RANGED

Friday Nature Hikes
10:00-12:00 PM

RANCH HANDS TEEN PROGRAM

- Introducing Free Range Ranch Hands, an exciting and immersive program tailored for 13-18 year olds under the umbrella of the renowned Free Range Farm School. This hands-on initiative offers a unique opportunity for adolescents to gain invaluable real-life experiences, fostering personal growth and practical skills in a dynamic and supportive environment. Ranch Hands meets weekly on Monday from 5:00 PM - 7:30 PM. Students will get a pearl snap shirt in addition to Farm School registration materials. If you are a teen that loves animals and looking to get hands on experience in agriculture, this program is for you! All interested teens must complete an interview to join the program. This builds a strong foundation for future careers and personal endeavors.

BASIC CONSTRUCTION

Participants will learn basic construction, honing skills that range from building a chicken tractor to mastering essential working skills. The hands-on approach ensures that each individual acquires practical knowledge that can be applied in various settings.

COOKING ADVENTURES

From indoor culinary dishes to open-fire cooking, participants will explore the art of preparing delicious meals. The curriculum includes not only cooking techniques but also the craft of creating homemade spices, encouraging self-sufficiency and creativity in the kitchen.

LIVESTOCK AND AGRICULTURE SKILLS:

This segment focuses on the fundamentals of livestock management and agriculture. Participants will actively engage in tasks such as caretaking of chickens, gaining insights into responsible and sustainable farming practices, and focusing specifically on California Ag.
