

MAXIMA SERENE OIL

Version: 1.0

Release date: 6 March 2019

Revision date: 09-27-2022

1. Identification of the substance / application and the company

Supplier: Maxima Racing Oils
9266 Abraham Way
Santee, CA 92071
USA
+1 619 449 5000

Product name: Maxima Serene Oil

Article number: 55-57916

Applications: Hydraulic Seat Post Oil

Emergency Telephone: CHEMTREC +1 703 527 3887 (24 hours)

2. Hazards identification

GHS Classification Not classified as hazardous in accordance with OSHA Hazcom 2012.

GHS pictogram No GHS pictogram.

Signal word No signal word.

Hazard statements No hazard statements.

Precautionary statements

Prevention statements No prevention statements.

Response statements No response statements.

Storage statements No storage statements.

Disposal statements No disposal statements.

Other hazards No other hazards.

3. Composition/information on ingredients

Components	Content %	CAS Number
Petroleum distillates	50-70	64742-54-7
Synthetic Base Oils	10-30	68037-01-4
Synthetic Base Oils	10-20	Proprietary
Zinc alkyldithiophosphate	>1-< 2.5	84605-29-8

The specific identity and/or exact percentage has been withheld as a trade secret.

4. First-aid measures

Inhalation If inhaled remove to fresh air. If irritation or difficulty in breathing occurs, get medical attention.

Skin contact Wash skin with soap and water. Remove clothing and shoes if contaminated. Launder clothing before re-use.

Eye contact Flush eyes with water for several minutes. Remove contact lenses, if present and easy to do so. If eye irritation persists, get medical attention.

Ingestion If conscious, rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention.

Most important symptoms May cause mild eye irritation. Prolonged skin contact may cause irritation. Inhalation of vapors or mists may cause respiratory irritation. Swallowing may cause gastrointestinal irritation, nausea, vomiting and diarrhea.

MAXIMA SERENE OIL

Version: 1.0

Release date: 6 March 2019

Revision date: 09-27-2022

Indication of immediate medical attention needed Immediate medical attention is not required.

Notes to physician Treat appropriately.

5. Firefighting measures

Suitable extinguishing media Use water fog, foam, dry chemical or carbon dioxide (CO₂) to extinguish flames.

Specific hazards arising from the chemical This material will burn although it is not easily ignited. Combustion will produce carbon oxide and unidentified organic compounds.

Special protective equipment and precautions for firefighters Firefighters should wear full emergency equipment and a NIOSH approved positive pressure self-contained breathing apparatus. Cool exposed intact containers with water.

6. Accidental release measures

Personal precautions Wear appropriate protective equipment. Wash thoroughly after handling. See also "Personal protection" section 8.

Environmental hazards Avoid release into the environment. Report spill as required by local and federal regulations.

Methods/materials for cleaning up Dike spill and collect with an inert absorbent. Place into closable containers for disposal. Collected material is handled in accordance with section 13 "Disposal considerations".

7. Handling and storage

Precautions for safe handling: Avoid contact with skin, eyes and clothing. Avoid breathing vapors and mists. Wear protective clothing and equipment. Wash thoroughly with soap and water after handling. Remove oil-soaked clothing and launder before re-use.

Conditions for safe storage: Store in a cool area away from oxidizing agents. Protect containers from physical damage.

8. Exposure controls/personal protection

Exposure limits	Petroleum distillates	5 mg/m ³ - TWA OSHA PEL (as oil Mist) 5 mg/m ³ - TWA ACGIH TLV (inhalable) (as mineral oil)
	Synthetic Base Oils	No limit established.
	Zinc alkyldithiophosphate	No limit established.

Appropriate engineering controls Good general room ventilation (equivalent to outdoors) should be adequate under normal conditions. If the recommended exposure limit is exceeded increased mechanical ventilation such as local exhaust may be required.

MAXIMA SERENE OIL

Version: 1.0

Release date: 6 March 2019

Revision date: 09-27-2022

Personal protection

Respiratory protection: No respiratory protection needed under normal use conditions with adequate ventilation. If exposure limits are exceeded, use a NIOSH approved respirator with organic vapor cartridges and particulate pre-filter. Selection of respiratory protection depends on the contaminant type, form and concentration. Select in accordance with OSHA 1910.134 and good Industrial Hygiene practice.

Eye protection: Safety glasses or goggles recommended if splashing is possible.

Skin/body protection: No special protective clothing is normally required. If there is a potential for prolonged skin contact, wear a long sleeved shirt and apron. Neoprene or nitrile rubber boots when necessary to avoid contaminating shoes.

Hand protection: Use nitrile or neoprene gloves for prolonged or repeated skin contact.

9. Physical and chemical properties

Appearance	Liquid
Color	Transparent
Odor	Odorless
Odor threshold:	No data available.
pH	No data available.
Freezing point	-70°C (Synthetic Base Oils)
Boiling point	220°C (Synthetic Base Oils)
Flash point	160°C (Synthetic Base Oils)
Evaporation rate	No data available.
Flammability (solid, gas)	Not applicable.
Upper explosion limit	Not applicable.
Lower explosion limit	Not applicable.
Vapor pressure	<0.01 mmHg @ 100°F
Vapor density (Air=1)	>1
Relative density	0.86 @ 15.6°C
Solubility	Soluble in hydrocarbons; insoluble in water
Partition coefficient: n-octanol/water	No data available.
Autoignition temperature	615°F (324°C) (Synthetic Base Oils)
Decomposition temperature	No data available.
Volatile organic compounds (VOC)	No data available.
Viscosity	23.6 cSt @ 40°C (104°F)

10. Stability and reactivity

Reactivity	Not expected to be reactive.
Chemical stability	Stable.
Possibility of hazardous reactions:	No possibility of hazardous reactions known.
Conditions to avoid	Avoid temperatures over 120°F, open flames and sparks.
Incompatible materials:	Avoid contact with strong oxidizing agents.
Hazardous decomposition products	Thermal decomposition may produce carbon oxides and unidentified organic compounds.

MAXIMA SERENE OIL

Version: 1.0

Release date: 6 March 2019

Revision date: 09-27-2022

11. Toxicological information**Potential health hazards****Eye contact:**

May cause mild irritation.

Skin contact:

Prolonged or repeated contact may cause mild irritation or dryness. Repeated skin contact may cause dermatitis.

Inhalation:

The excessive inhalation of vapors or mists may cause upper respiratory tract irritation and central nervous system effects including headache, dizziness and nausea. Breathing high concentrations of oil mists may cause lung damage.

Ingestion:

Swallowing large amounts may cause gastrointestinal effects including nausea and diarrhea.

Chronic effects of overexposure: Used motor oils have been found to cause skin cancer in skin painting studies with laboratory animals.**Sensitization:**

None of the components have been found to cause sensitization in animals or humans.

Mutagenicity:

This product is not expected to cause mutagenic activity.

Reproductive toxicity:

This product is not expected to cause reproductive or developmental effects.

Carcinogenicity:

None of the components of this product are listed as a carcinogen or suspected carcinogen by IARC, NTP, or OSHA.

Acute toxicity:

Petroleum distillates

LD50 oral rat - >5000 mg/kg; LC50 inhalation rat - >5.5 mg/L/4 hr (mist); LD50 dermal rabbit - >2000 mg/kg

Synthetic Base Oils

LD50 oral rat - >5000 mg/kg; LC50 inhalation rat - >5.2 mg/L/4 hr; LD50 dermal rat - >2000 mg/kg

Zinc alkyldithiophosphate

LD50 oral rat - 3100 mg/kg; LC50 inhalation rat - >2.3 mg/L/4 hr (no mortality); LD50 dermal rat - >2002 mg/kg

12. Ecological information**Ecotoxicity**

Petroleum distillates

LL50 fish - >100 mg/L; EL50 aquatic invertebrates - > 100 mg/L; EL50 algae - > 100 mg/L

Synthetic Base Oils

96 hr LL50 *Oncorhynchus mykiss* - >1000 mg/L; 48 hr EL50 *Daphnia magna* - >1000 mg/L; 72 hr EL50 *Scenedesmus capricornutum* - 1000 mg/L

Zinc alkyldithiophosphate

96 hr LC50 *Oncorhynchus mykiss* - 4.5 mg/L; 48 hr EC50 *Daphnia magna* - 23 mg/L; 72 hr EC50 *Scenedesmus quadricuada* - 21 mg/L**Biodegradation**

Petroleum distillates are not readily biodegradable.

Synthetic base oils are expected to be inherently biodegradable.

Zinc alkyldithiophosphate is not readily degradable (1.5 %, 28 d, OECD TG 301 B).

MAXIMA SERENE OIL

Version: 1.0

Release date: 6 March 2019

Revision date: 09-27-2022

Bioaccumulation Petroleum distillates have a log Kow of > 5.3 which suggests a potential for bioaccumulation.
Synthetic base oils are not expected to bioaccumulate.
Zinc alkyldithiophosphate has a log Kow of < 3 which does not suggest a potential for bioaccumulation.

Mobility in soil The product is not water soluble (floats on water) and may be adsorbed to soil particles.

Other adverse effects: No other adverse effects known.

13. Disposal considerations

Disposal Dispose in accordance with all local, state and federal regulations.

14. Transport information

	UN number	Proper shipping name	Hazard class	Packing group	Environmental hazard
DOT		Proper shipping name not regulated.			
TDG		Proper shipping name not regulated.			
IMDG		Proper shipping name not regulated.			
IATA		Proper shipping name not regulated.			

Transport in bulk (according to Annex II of MARPOL 73/78 and the IBC Code): Not applicable - product is transported only in packaged form.

Special precautions: No special precautions known.

15. Regulatory information

CERCLA: This product is not subject to CERCLA reporting requirements, however, oil spills are reportable to the National Response Center under the Clean Water Act and many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations.

EPA SARA 302: This product does not contain chemicals regulated under SARA Section 302.

EPA SARA 311 Hazard Classification: Not hazardous.

EPA SARA 313: This product contains the following chemicals that are regulated under SARA Title III, section 313:

Zinc alkyldithiophosphate	Confidential	0.76%
Zinc alkyldithiophosphate	84605-29-8	0.2%
Zinc alkyldithiophosphate	Confidential	0.22%

California Proposition 65: This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

SAFETY DATA SHEET

MAXIMA SERENE OIL

Version: 1.0

Release date: 6 March 2019

Revision date: 09-27-2022

Chemical Inventories

Toxic Substances Control Act: All of the components of this product are listed on the TSCA inventory.

16. Other information

NFPA Rating (NFPA 704):	Health classification:	1	Fire:	1	Instability:	0
HMIS Rating:	Health classification:	1	Fire:	1	Physical hazard:	0

Date of revision: 6 March 2019

Date of previous: N/A

Revision history:

6 March 2019: Initial release of document.
