Inspection & Maintenance

We recommend the following inspection and maintenance.

Looking After Your Sandpit

Your sandpit is made of good quality Fir wood. It has been treated to keep it looking good in your garden and to protect it from the elements. Despite this it should be covered in severe weather conditions. We recommend re-treating your sandpit regularly to prolong its life and keep it looking good too. We would recommend a non-toxic wood stain preferably tested to meet EN71 safety regulations (these are European children's play equipment safety rules). Avoid products which contain ANY of the following:

antimony, arsenic, barium, cadmium, chromium, lead, mercury and selenium.

Wood is Natural - so we accept its auirks, naturally!

There will be a reason you have bought a wooden sandpit and not a plastic one. Like us, you are likely to appreciate the beauty and quality that a wooden product can give. They are also a little kinder on the environment than plastic products. As with all wooden products, some variation in colour may be apparent and the wood will expand and shrink in wet and dry conditions. As a result of this natural expanding and contracting some cracks and splits may occur which is normal and nothing to worry about - it just shows it is a natural product. So please accept these quirks, and look after it - it deserves your care and attention!

Weekly to monthly / routine visual inspection

Regularly check the sandpit for splinters - these could hurt little hands or become a choking hazard. Check for any signs of wear and tear. It is important to regularly check all parts, including the crossbeams, supports and panels. If regular checks on the sandpit are not carried out, the unit could overturn or otherwise become a hazard. It is important to check all screws and tighten

The following inspection and maintenance should be carried out after assembly and then at least twice a month while in use and at the start of each season; -check all nuts and bolts for tightness and tighten when required; - check all bolts for sharp edges and replace when required;- replace defective parts in accordance with the manufacturer's instructions.

Warnings!

◄ Only for domestic use. To be used under the supervision of an adult. Intended for outdoor use by children aged 12 months - 12 years. This product is designed for 1-4 users with a combined weight of 200kg. Install the product in a way to avoid risk of entrapment - with sufficient gap between the product and other surfaces.

Warnung! Nur für den häuslichen Gebrauch. Nur für Kinder zwischen 12 Monaten - 12 Jahren geeignet. Für vier Kinder mit einem Gesamtgewicht von 200 kg ausgelegt. Nur unter der direkten Aufsicht eines. Erwachsenen benutzen. Bei der Montage des Produktes in ein Spielgerät oder eine andere Konstruktion muss sichergestellt werden, dass keine Fangstellen für Gliedmasse oder Kleidungstelle enstehen.

Attention! Exclusivement à usage familial. Conçu pour les enfants entre 12 mois - 12 ans seulement. Conçus pour être utilisés par quatre enfants avec un poids combiné de 200kgs. À utiliser sous la surveillance rapprochée d'un adulte. Au cas où l'on incorpore le produit dans un jeu ou une construction quelconque, il faudra le faire de façon à éliminer tout risque de coinçage.

¡Advertencia! Exclusivamente para uso doméstico. Diseñada para niños de entre 12 meses -12 años solamente. Diseñada para ser utilizados por cuatro niños con un peso combinado de 200 kg. Se utilizará exclusivamente bajo la vigilancia directa de una persona adulta. La instalación de este producto en un juego infantil o otra construcción debe estar hecho asi que peligro para quedarse atascado quede excluido.

🕨 Attenzione! Solo per uso domestico. Progettata per bambini tra i 12 mesi -12 anni. Progettate per essere utilizzate da quattro bambini con un peso combinato di 200 kg. Utilizzare sotto la sorveglianza diretta di un adulto. Effettuare il montaggio in modo che si eviti il rischio di intrappolamento.

Waarschuwing! Alleen voor privé gebruik.. Ontworpen voor kinderen tussen 12 maanden - 12 jaar oud. Ontworpen voor gebruik door vier kinderen met een gecombineerd gewicht van 200 kg. Alleen voor privé gebruiken onder toezicht van een volwassene. Het inbouwen van dit product in een speelt oestel of andere constructie dient zodanig te gebeuren dat voor beknelling uitgesloten is.

Building the Bottom Layer of the Sides

You will need:

- 2 x Parts 2 (Bottom Sides B)
- 2 x Parts 4 (Bottom Sides A)

Slot the Bottom Sides B (Parts 2) into the Bottom Sides A (Parts 4) to form the square shaped bottom layer of the sandpit as shown in diagram 1.

Building

Building the Top Layer of the Sides

You will need: 2 x Parts 3 (Middle Sides) 2 x Parts 1 (Top Sides)

Place the Middle Sides (Parts 3) on top of the Bottom Sides B (Parts 2) using the tongue and groove edges to interlock the pieces.

Then slot the Top Sides (Parts 1) into the Middle Sides (Parts 3) ensuring the grooved edges interlock with the protruding tongue edges of the Bottom Sides A (Parts 4) underneath. See diagram 2.

You have now completed the top layer of the sandpit sides.

Securing the Side Layers

You will need: 4 x Parts 5 (Side Connectors) 16 x Screws B (25mm)

Screw one Side Connector (Part 5) half way along each side of the sandpit using four Screws B - one above the other to fix the top and bottom side layers together. See diagram 3.

Fixing the Lid

You will need: 2 x Part 6 (Lid Edge) 10 x Screws A (30mm)

Place one of the pre-assembled Lid Edge sections (Part 6) on top of one side of the sandpit. Screw in place with five Screws A at the positions indicated by the pilot holes. See diagram 4. Repeat for the other Lid Edge section.

diagram 4

Attaching the Folding Seats

You will need: 2 x Parts 7 (Folding Seats) 12 x Screws C (12mm)

Place one of the pre-assembled Folding Seat sections (Part 7) on top of the sandpit. Fix the hinges to the Lid Edge (Part 6) using six Screw Cs. See diagram 5.
Repeat for the other Folding Seat Section.

N.B. There should be a gap in the lid of the sandpit between the edges of the two Folding Seat sections to prevent fingers being trapped when the seats are folded and unfolded.

Now your sandpit is complete, you simply need to decide where you are going to place it. The sandpit should be placed on a suitable ground surface such as grass or a play mat. Place the activity toy on a level surface at least 2m from any structure or obstruction such as a fence, garage, house, overhanging branches, laundry lines or electrical wires.

Do not place on concrete, asphalt or any other hard surface.

Any modifications made by the consumer must be carried out according to the manufacturer's instructions.

Once you have chosen your location, you can insert the black underlay inside the sandpit and fill it with 4 x 25kg of play sand. The underlay will allow water to safely drain through to the ground underneath but will prevent weeds from growing up through the sand. It is important to use play sand as this is non-abrasive and other types of sand can hurt little hands.

Don't forget to fold the seats down to form a lid when the sandpit is not being used.

This will help to keep leaves, debris and cheeky little animals out of the sand!

The lid is not waterproof, so your sand may get wet even when it is closed. If your sand gets particularly wet, make sure you fold the seats back on the first sunny day in spring and allow your sand to dry out.

You may want to replenish the play sand in your sandpit every year as it can get dirty and often gets thrown out through enthusiastic play!

The concentration on their faces! #littleplayexpert

You may or may not be aware that we design and make many different kinds of garden games and play equipment.

Big Game Hunters has been designing and creating games for children and families since 1997 - so by now we really do know what we are doing.

Here are just a few that are great for the whole family as well as just the kids...

Whacky Ranch Playhouse

Wooden Skittles

The logo to look out for...

There are many more products we have created - just look out for our Big Game Hunters logo or flower emblem

to be sure you have an official product. The brand is not just a logo, it is the whole family of ideas, service and quality that are behind every product. We are not a huge corporate and do not claim to be - we are proud of who we are and what we create so look out for our brand knowing that each product carrying our logo has a special standard we aim to maintain for years and years to come...

Random Factoid Bubbles

Please retain for future reference

One of the
very first times sand
play was recorded was
when giant piles of sand
were heaped up in parks
in Berlin in 1850.

They called these piles "sand bergs"!
