Before Installation

Check all parts are present!

Our factory takes every effort to make sure everything is packed in its proper place. But just in case a small part has gone astray please make sure you check every piece is present before you begin installing - right down to the nuts and bolts.

Assemble with Care

Installation should be completed by two adults. Please make sure you follow all the instructions carefully. If you have any questions during installation please do not hesitate to contact us on +441865 392439 or email sales@biggamehunters.co.uk and we will be happy to advise.

Please make sure you read all the safety warnings and advice in this instruction manual. Take extra care and attention over the wall fixing instructions as this will make your equipment firmly attached once you have completed the assembly. Make sure you position the backboard somewhere with plenty of space to play.

Using the Basketball Equipment

Improper installation or use of the basketball backboard and flex ring may cause damage to the system or result in serious injury to the user. We would advise that children are supervised at all times when using this product.

Please adhere to the warnings below to ensure proper use of this equipment and ultimately to ensure full enjoyment!

Attaching the Basketball Net

When attaching the net to your basketball hoop, make sure you have the net the correct way up. The wider loops/wider part of the net should be at the top. Slide the loops of the net over the metal loops on the inside of the basketball hoop - from the inside towards the outside (see diagram 1). You can also see here a net that has been assembled correctly and one that has been assembled upside down!

Assembling Your Backboard & Ring

1

Assemble the Frame

You will need:

2 x Board Braces (parts 4)

1 x Board Bracket (part 5)

2 x Bolts & Washers E (M12 x 150mm)

Attach the two Backboard Braces (parts 4) to the Backboard Bracket (part 5) using two Bolts, Nuts and Washers E.

They should sit in this order once assembled:

Bolt > Washer > Brace > Bracket > Bolt Sleeve > Bracket Section > Brace Tube > Washer > Nut

2

Mark the Position of the Backboard

You will need:

Pre assembled parts from step 1 (parts 4 + 5)

Pencil

Decide where you would like your backboard to be fixed and using the backboard frame as a template mark where you will drill the holes in the wall. Alternatively you can skip this step and mark the position once the whole backboard is assembled.

3

Attach Backboard Braces

You will need:

Pre assembled parts from step 1 (parts 4 + 5)

1 x Backboard

2 x Bolts & Washers A (M8 x 16mm)

Bend both struts of the Backboard Bracket (part 5) outwards and attach them to the backboard using two Bolts, Nuts and Washers A.

4

Attach Ring to Backboard

You will need:

Pre assembled parts from steps 1-3 (backboard with braces and bracket)

2 x Bolts, Nuts & Washers B (M8x 40mm)

2 x Bolts, Springs, Nuts & Washers D (M8 x 110mm)

Attach ring (part 2) to the backboard (part 1) using two Bolts, Nuts and Washers B and two Bolts, Springs, Nuts & Washers D. The spring bolts go in the top two holes, and the plain bolts in the bottom two holes. The bolts go through the ring then through the backboard and are fixed in place using the nuts.

They should sit in this order once assembled:

Bolt > Washer > Ring > Backboard > Washer > Nut

5

Fix Backboard to Wall

You will need:

Pre assembled backboard from steps 1-4 (parts 1 + 2 + 4 + 5)

4 x Bolts, Nut & Washers C (M8 x 80mm)

Fix the backboard brackets to the wall using four wall anchor Bolts, Nuts and Washers C. Using an equal diameter drill bit to the wall anchor bolts drill the holes in your wall and insert the bolts with the nuts facing out. Remove the nuts and place the backboard onto the bolts. Put the nuts back onto the bolts and tighten them. The anchor bolts will expand as you tighten the nuts, securing the backboard in place.

They should sit in this order once fixed:

Bolt > Bracket > Washer > Nut

Warning!

Failure to comply with these warnings can lead to injury and/or damage of the basketball equipment.

- If using a ladder during assembly, use extreme caution.
- Do not allow children to hang from the hoop or any part of the system including the backboard, rim, support braces or net.
- Do not perform 'dunk' moves on this basketball backboard as it is not designed for this purpose. During play ensure face does not come close to the backboard, rim or net as this could result in injury.
- Make sure you check the backboard frequently to ensure it is properly attached to the wall (see the *Inspection and Maintenance* section below).
- Check the system before use to make sure all fixtures and fittings are tight (see *Inspection and Maintenance* below).
- During play, do not wear jewellery (e.g. rings, watches, necklaces) objects may become entangled in the net.
- Adverse weather conditions, exposure to extremes of weather, corrosive materials such as salt, herbicides or pesticides or misuse of the backboard could cause corrosion and result in the system failing.
- This equipment is intended for home recreational use only and NOT excessive competitive play.

Inspection & Maintenance

We recommend the following inspection and maintenance.

Looking After Your Basketball Backboard and Flex Ring

Your basketball backboard and flex ring - just like any other outdoor play equipment - are designed to be used outside but without proper care and maintenance will not last as long as you might want.

Weekly to monthly / routine visual inspection

Check all nuts and bolts - if any are loose, tighten them where necessary.

1 -2 times per year / annual inspection

Check for rust and corrosion of nuts and bolts and replace with galvanised steel replacements where necessary.
