

CAPABILITY STATEMENT

Committed to Getting Operators Out Of The Line Of Fire.

LIVETEST
GET OUT OF THE LINE OF FIRE

A large yellow tracked excavator is the central focus, positioned in a mining environment. The machine's tracks and heavy-duty body are prominent. In the background, a steep, rocky mountain rises under a cloudy sky. The overall scene is industrial and rugged.

A *LEADING FORCE*
IN INNOVATIVE
TECHNOLOGIES
FOR ELIMINATING
LIVE WORK.

Livetest - Get Out Of The Line Of Fire.

LEADERS IN CUSTOM KITS **FOR TESTING HEAVY MACHINERY**

Supporting industry since 2017, Livetest is an Australian-owned business committed to getting operators out of the line of fire. Our goal is eliminating live work hazards when testing heavy machinery.

INNOVATIVE TECHNOLOGY TAILORED SOLUTIONS

With a relentless pursuit of improving product features and design to make diagnostic testing safe, simple and efficient.

OUR GOAL IS ZERO IN WORKPLACE INJURIES.

ELIMINATE RISK

IMPROVE ACCURACY

IMPROVE PRODUCTIVITY

KITS BUILT WITH PURPOSE

Tailored to equip you for safe and efficient testing.

CUSTOM KITS FOR

- Hydraulic Pressure
- Movement Checks
- RPM Measurement
- Boom Sag Testing
- Rotor Runout
- Vibration Analysis
- Crankshaft Deflection

Custom accessories and parts by request.

INDUSTRIES

- Mining
- Rail
- Oil & Gas
- Hydro Power
- Wind Power
- Maritime
- Agriculture
- Construction
- Defence

PRODUCTS

BlueDial - integrates Bluetooth technology with a dial indicator.

BluePSI - wireless pressure & temperature transducer.

BlueTak - Bluetooth digital tachometer.

Laser Range Finder - distance measuring.

Inspection Robots - 4x4 inspection robot with HD camera.

MultiGage Software - The MultiGage Reader app is able to connect to multiple Bluetooth measurement devices (14 on iOS, 8 on Android) and receive readings simultaneously.
