

yearly goals

Time moves by pretty quickly, but one thing that helps us stay grounded and on track is a visualization of our yearly goals. This is your space to reflect on all the things you'd like to accomplish this year – whether it's your dream to start your own business, learn a new craft, read new books, or get more involved in the world around you!

HOW DO YOU ENVISION YOURSELF AS A WAAVMAKER?

For yearly goals, follow The Rule of THREE. This way, you get to focus on the pieces of your year that mean the most to YOU while easily tracking your progress with these goals throughout the year.
