

# Instructions

for

## Double Decker Media Stand

### What's in the box

- 1 x Record Stand (DOUBLE DECKER TYPE)
- 4 x Wooden or Iron Feet
- 20 x Screws to attach the iron legs
- (Please note extra screws might be added)
- 4 x Wooden Spacer
- 4 x Connecting Bolts

### Wooden Legs

Your set includes four wooden legs. These need to be attached to the bottom part of your record stand. You can easily fit these by screwing them in with your hand. We have fitted the legs plates for you.

### Iron Hairpin Legs

Your set includes four iron hairpin legs. To assemble these you will need a star type screwdriver or a power tool with a star type end. Holes for the legs has been pre-drilled and should be clearly visible underneath your record stand. Please align the base of hairpin legs along the pre drilled holes. Using a screwdriver or a power tool attach the legs with included screws.

# Instructions

## Double Decker Media Stand

1. Both sections of double-decker have been marked clearly underneath each section. In the lower part, you will be able to see predrilled holes dedicated to the legs. Please use Screws included in the box along with hairpin-style legs. We advise using a power drill or a star-type screwdriver.

### Included parts

Wooden  
Spacers

x 4

Connecting  
Bolts

x 4

Once the lower part has hairpin legs attached you are ready for the next step.

2.

A.

Place four wooden spacers on top of the cabinet.

There are predrilled holes indicating where the spacer should be placed.

C.

There are predrilled holes underneath the upper part of the cabinet. These will help you to align both sections. Once both sections are aligned you are ready to screw in the bolts using a power tool or screwdriver.

B.

From the underneath place the long connecting bolt. Do so for all four corners.
