As 20th Century Fox Makeup Director, Ben Nye designed an ensemble of time-honored characters now immortalized on the silver screen. We encourage you to create your own characters with Ben Nye Makeup as you follow our professional directions.

**GETTING STARTED** This Kit includes all the basic professional quality components required to create this design. Colors are concentrated, so use them sparingly. The optional items listed below will enable you to achieve even better results.

*Neutral Set Face Powder*  
*Super White Face Powder*  
*Pretty Pink Face Powder*  
*MagiCake™ Aqua Face Paints*  
*MagiColor™ Liquid Face Paints*

*MagiColor Creme Pencils*  
*Rouge or Touch-up Brush*  
*Flat Brushes No. 5, 7, 10*  
*Extra Sponge Sections*  
*Velour Powder Puff*

Practice makes perfect, so plan to practice your makeup design. Be prepared to spend about forty-five minutes to complete your character. For quick clean-up, use Ben Nye's *Quick Cleanse* followed by soap and water.

**PREPARATION** Wash face and neck with cleanser or soap and water. Use an astringent to remove excess oiliness. Avoid cleansing cream or oil-based cleansers as they will thin makeup. **Discontinue use if makeup causes skin irritation. Parental supervision is required for use on children.**

**DIRECTIONS** Follow these simple directions to recreate our character or design your own delightful clown face. Personalizing your own character is half the fun!

1. Outline design with *White Pencil*. Fill in areas with color as described below.

2. **White:** Apply *Clown White Lite* base to eye and mouth/beard area with a *No. 7 Flat Brush*. Sprinkle *Neutral Set Face Powder* on puff. Rub puff together and gently apply powder to *White*. Remove excess with puff or brush. For a brighter finish, set with *Super White Powder*.

3. **Auguste:** Apply *Auguste* base around *White* to face, neck and head (if applicable), including ears. Pat surface lightly with sponge to even out color. Set with *Neutral Set Powder*. For a brighter finish, set *Auguste* with *Pretty Pink Powder*.

4. **Red:** Carefully apply *Red* with brush or sponge to bulb of nose, between brows and around entire *White* "beard" area. Lightly blend *Red* edges into *Auguste* with brush. Set with *Neutral Set Powder*.

5. **Black:** With a *No. 3 or 5 Flat Brush*, outline top only of *White* eye area with *Black*. Add *Black* character lines to top and bottom eye lids. Outline *White* beard area. Apply *Black* to bottom lip, extending lines slightly beyond outer corners of mouth. Apply *Black* to top lip (keep shape of top lip to a minimum). Powder entire face with *Neutral Set Powder*. Dab a moistened sponge over makeup to brighten colors and remove excess powder.

6. To intensify *Red*, apply *Red MagiCake Aqua Paint* directly over powdered *Red* areas. To enhance your design, apply additional colors including *MagiColor Pencils* and/or *Liquid Face Paints*. Finish with costume and accessories.
