

BN Ben Nye

Clown Kit

Washable and Non-Toxic Makeup

Easy Step-by-Step
Full Color Directions Included

HK-2

As 20th Century Fox Makeup Director, Ben Nye, Sr. designed an ensemble of time-honored characters now immortalized on the silver screen. We encourage you to create your own characters with Ben Nye Makeup as you follow our professional directions.

GETTING STARTED This Kit includes all the basic professional quality components required to create this design. Colors are concentrated, so use them sparingly. The optional items listed below will enable you to achieve even better results.

Neutral Set Face Powder
Super White Face Powder
MagiCake™ Aqua Face Paints
MagiColor™ Creme Liner Pencils
MagiColor Liquid Face Paints
Sparklers Glitter

Glitter Glue
Black Mascara
Extra Flat Brushes
Rouge or Touch-up Brush
Extra Sponge Sections
Velour Powder Puff

Practice makes perfect, so plan to practice your makeup design. Be prepared to spend about forty-five minutes to complete your character. For quick clean-up, use Ben Nye's *Quick Cleanse* followed by cleanser and water.

PREPARATION Clean face and neck with *Hydra Cleanse*, or soap and water before applying makeup. Use an astringent to remove excess oiliness. **Discontinue use if skin irritation occurs. Parental supervision is recommended for use on children.**

DIRECTIONS Follow these simple directions to recreate our character or design your own delightful clown face. Personalizing your own character is half the fun!

1. Outline design with *White Pencil*. Fill in areas with color as described below.

2. **White:** Apply *Clown White Lite* base to face and neck with sponge. Apply to smaller areas and around curves with a small flat brush. Pat surface lightly with sponge to even out color. Sprinkle *Neutral Set Powder* on puff. Rub puff together and gently press into base to set. Remove excess with clean puff or rouge brush. For a brighter finish, set with *Super White Powder*.

3. **Red:** With a flat brush, apply *Red* to bottom lip only, extending corners out to cheek area, if desired. Apply *Red* to cheeks and nose.

4. **Cosmic Blue:** Apply *Cosmic Blue* with brush to upper eyelid area. For a softer shade, apply over *White*. For a brighter color, remove *White* from design area and apply *Cosmic Blue* directly to skin. Carefully set makeup with *Neutral Set Powder*.

5. **Yellow:** If desired, add *Yellow* next to *Cosmic Blue* at brow area.

6. **Black:** Apply *Black* outline around *Red*. Apply "eyelash" lines, eyeliner, eyebrows and detail as shown. Set completed makeup with *Neutral Set Powder*. Dab a moistened sponge over powdered makeup to brighten colors and remove excess powder.

7 & 8. To intensify *Red*, apply *Red MagiCake Aqua Paint* directly over powdered *Red* areas. To enhance your design, apply additional colors including *MagiColor Pencils*, *Liquid Face Paints* and *Sparklers Glitter*. Finish with *Mascara*, *Dry Rouge*, costume and wig.
