

### Optional Brow Feature:

**STEP 1:** Using the Stageline Brush and the Black shade in the Tricolor Palette create thin, wavy lines above and between the brows. Follow down onto the bridge of the nose as shown.

**Step 2:** Dip the brush into the E.Y.E. Powder in Black and blend out the lines to deepen the look of the wrinkles.

**Step 3:** Using the Moonlight White shade in the Tricolor Palette add highlights along the Black lines as shown. Set with a small amount of Colorset Powder.

## Professional Makeup Kit

**Easy  
Step-by-Step  
Instructions**

**STEP 1:** Begin with clean, dry skin. Use Moonlight White shade in the Tricolor Palette to evenly cover face and neck. Set with the Colorset Powder.

**STEP 2:** Contour the cheeks using the E.Y.E. Powder in Black by starting at the top of the cheekbone near the hairline and lightly sweep powder along the bone structure and in towards the nose. Use light pressure so the powder is distributed evenly and repeat to darken and create a more hollowed out effect.

**STEP 3:** Create a dark, smokey eye by sweeping the black shade in the Tricolor Palette onto the lid and across the lower lash line. Set the Black cream makeup by adding E.Y.E. Powder over it. Buff out to create a smokey eye. Finish by lining the upper and lower lash line with the black Eye Pencil.

**STEP 4:** Fill in the lips using the Red shade from the Tricolor Palette.

*Artist Tip:* For a freshly bitten look, lightly dab the center of the upper and lower lip using Red Shade then smudge and diffuse with a brush.

**STEP 5:** Add Stage Blood to corners of the mouth. For a messier look smear Stage Blood with fingers around the mouth, jawline and down onto the neck.

*Artist Tip:* The blood is edible (and vegan), so you can swish it around in the mouth and allow to drip from the lips for a more realistic effect.

**STEP 6:** Pop in your vampire fangs!

**Optional Step:** See back panel for brow feature instructions
