

**SEM11 MOTOR**  
 Energy efficient European Motor  
 Internal installation

Motor install type	Inside the house
Ducting diameter	150mm
Extraction	1200m <sup>3</sup> /h
Electrical requirement	10A
Power absorption	270W
Pressure	590Pa
Noise	64 dBA
	Aluminium die cast
Dimensions (mm)	W302 x D302 x H255
Warranty	10 years

Internal Motor Configuration

Inside the house installation:

These motors can be installed a maximum of 7 metres away from the hood, with the optimum performance being 2-5 metres from the hood. From the motor to the exit point to the atmosphere, an additional 5 metres of ducting can be used.

Shown with wall vent.  
 (Also available in roof or eave vent.)

 (Also available in wall or eave vent.)

- Use semi-rigid or rigid ducting, not fully flexible foil ducting.
- Fewer bends means a quieter and more powerful extraction.
- Extra 3 years warranty on Sirius rangehood when Sirius ducting is used (total 6 years).
- See [support page](#) on Sirius website for installation videos and FAQs.

WARNING: technical specifications and product sizes can be varied by the manufacturer, without notice. Cut outs for appliances should only be by physical product measurements. The above information is indicative only.
