SECTION 13. DISPOSAL CONSIDERATIONS

Vacuum or shovel material into a closed container, Storage and disposal should be in accordance with applicable local, state, and federal laws and regulations. Local regulations may be more stringent than state or federal requirements. Activated Carbon is an adsorbent media; hazard classification is generally determined by the adsorbate that the carbon has picked up. Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classification of hazardous waste prior to disposal.

SECTION 14. TRANSPORT INFORMATION

Under the UN classification for activated carbon, all activated carbons have been identified as a class 4.2 product. However, this product has been tested according to the United Nations Transport of Dangerous Goods test protocol for a "self-heating substance" and it has been determined that this product does not meet the definition of a self-heating substance, or any other hazard class, and therefore should not be listed as a hazardous material. This information is applicable only for the Activated Carbon product identified in this document.
