

TRAK WIRED™

The Trak Wired modern commercial ceiling fan collection works where comfort is as important as style and durability.

This commercial ceiling fan is available in four sizes, three versatile finishes, and an LED light option to fit your space's size, style, and lighting needs. The true innovation with Trak Wired is in its wall control, which, depending on the model selected, allows users to adjust fan speed, change spin direction, and schedule run times for an individual fan or an ENTIRE NETWORK OF FANS, all at the touch of a button. No need to worry about multiple wall switches or easy-to-lose remote controls.

Basic Wall Control

3" Touchscreen Wall Control

4" Touchscreen Wall Control

Trak Wired is designed for commercial spaces that value stylistic appeal AND effective airflow. It is ideal for restaurants, fitness centers, patios, sports facilities, and much more.
