

THRASS RESOURCE KIT CD (T-185) - OVERVIEW

THRASS RESOURCE KIT CD (T-185)

The THRASS Resource Kit CD (T-185) features revised electronic versions of the copymasters and Teacher's Notes from the original THRASS Resource File (T-01), circa 1998-2012. The 'Teaching Notes' on this CD are more comprehensive, being a combination from the original THRASS Resource File (T-01) and the original THRASS Teacher's Manual (T-13).

Including this Overview, the CD contains folders for: Charts, Handwriting, Reading, Spelling, Assessment, Raps and Sequences CD - Notes and a finally Copyright folder outlining usage of the T-185 and other THRASS resources.

The CD is one component of the new THRASS Resource Kit (T-101) and can only be purchased as part of that resource, except for owners of the superseded THRASS Resource File (T-01) who will have exclusive access to purchase copies.

Alternatively, there may be some THRASS Resource File (T-01) owners who wish to obtain the 2012 or any subsequent upgrade sheets and notes, print them out and insert these into their existing hardcopy file, to bring it up to the same specification as this new CD. These upgrade sheets are available on our website or by contacting our office. This service is available 'free' to customers who already own a THRASS Resource File (T-01).

To assist you with upgrade and purchase information, THRASS has purchase records of all THRASS Resource Files (T-01).

FOLDERS ON THIS CD

CHARTS, HANDWRITING, SPELLING, ASSESSMENT, READING

These folders contain all of the teaching notes and copymasters for each teaching section. The pdf format will allow greater flexibility when using these notes and worksheets. They can be printed or used on an electronic board.

THRASS RAPS AND SEQUENCES CD - NOTES

The notes in this folder cover usage of the Raps and Sequences CD along with valuable background information. An updated edition of the CD was published in 2012. This resource can be purchased individually without any prerequisites.
