# General care and maintenance

## Packing

The sofa comes in several boxes, and we shipped all the packages at the same time but somehow FEDEX separated them, so the packages may be delivered at different times. If you have any questions about other tracking numbers, please feel free to contact us.

During the unpacking process, please pay attention to avoid scratching the product surface fabric with sharp objects;

The hardware box is placed in the seat frame and under the armrest

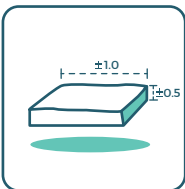

## Compression / Repair

The cushions arrived vacuum sealed and took at least 72 hours to fully fluff back up and fabric wrinkles disappear.

Using the correct technique to pat the cushions, as well as warming up the cushions with a hair dryer or sunshine, can accelerate the recovery process.

The cushion is soft and has been compressed and packaged. There will be a slight size error after rebounding. It is normal for the length and width to be  $\pm 1\text{cm}$  and the thickness to be  $\pm 0.5$ .

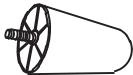

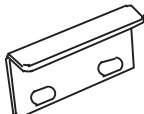

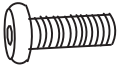

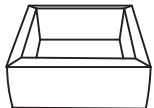

Normal use, spraying water, and drying with a hair dryer can accelerate the disappearance of fabric wrinkles

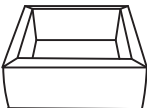

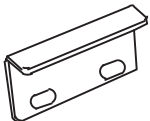

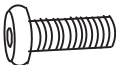

# Components

Please check if all the pieces listed below are received.

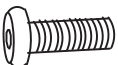

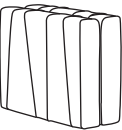

## 【Package A】 Seat
