# ABOUT US

Sara Hayat is the founder of Sara Hayat Designs, a modern and artful furniture brand with a signature perspective on shape and luxury material.

There is something to be said about surrounding yourself with beauty and reminders that nudge you into fulfilling the vision you have for yourself. The power of aesthetics and beauty has a way of leaving us changed, forcing us to see and feel beyond what we could've imagined possible. This shift in perception and feeling can be in a Vermeer painting or a song on the radio that pushes you outside of yourself. It can also be the beautifully imagined and designed furniture pieces in your home.

When designing my pieces, I wanted to create something that would be beautifully distinctive yet functional. I am proud to say we have been granted 10 design copyrights and have several more pending.

But coming up with designs was challenging in more ways than one. Every part of the piece has been thought out from the ground up. From the materials used to joinery techniques, to how different elements of the piece will come together, we wanted to make sure they serve their intended purpose in your home.

Since the 1870s, my family has produced timeless, antique reproductions for dignitaries and esteemed clients the world over. By continuously exploring and experimenting with different materials and manufacturing techniques, our skilled craftsmen and artisans have produced pieces that are intricate and elegant.

I hope our hard work and dedication to the craft shine through in our designs. I have tried to make each item unique and functional and I hope they add beauty in to your lives and your homes.

Experience the beauty of family and love with our luxurious dual sided sectional. Designed for both comfort and style, this sectional is ideal for the entire family. Its open and inviting nature creates a conversation area that brings people together, while providing the perfect seating option for everyone to gather. With its grounded and relaxed structure, this sectional enhances the natural feel of your living space, allowing you to escape from the outside world. Reigning supreme in the living room, its contemporary design and mix of textures make it a perfect fit for any space.

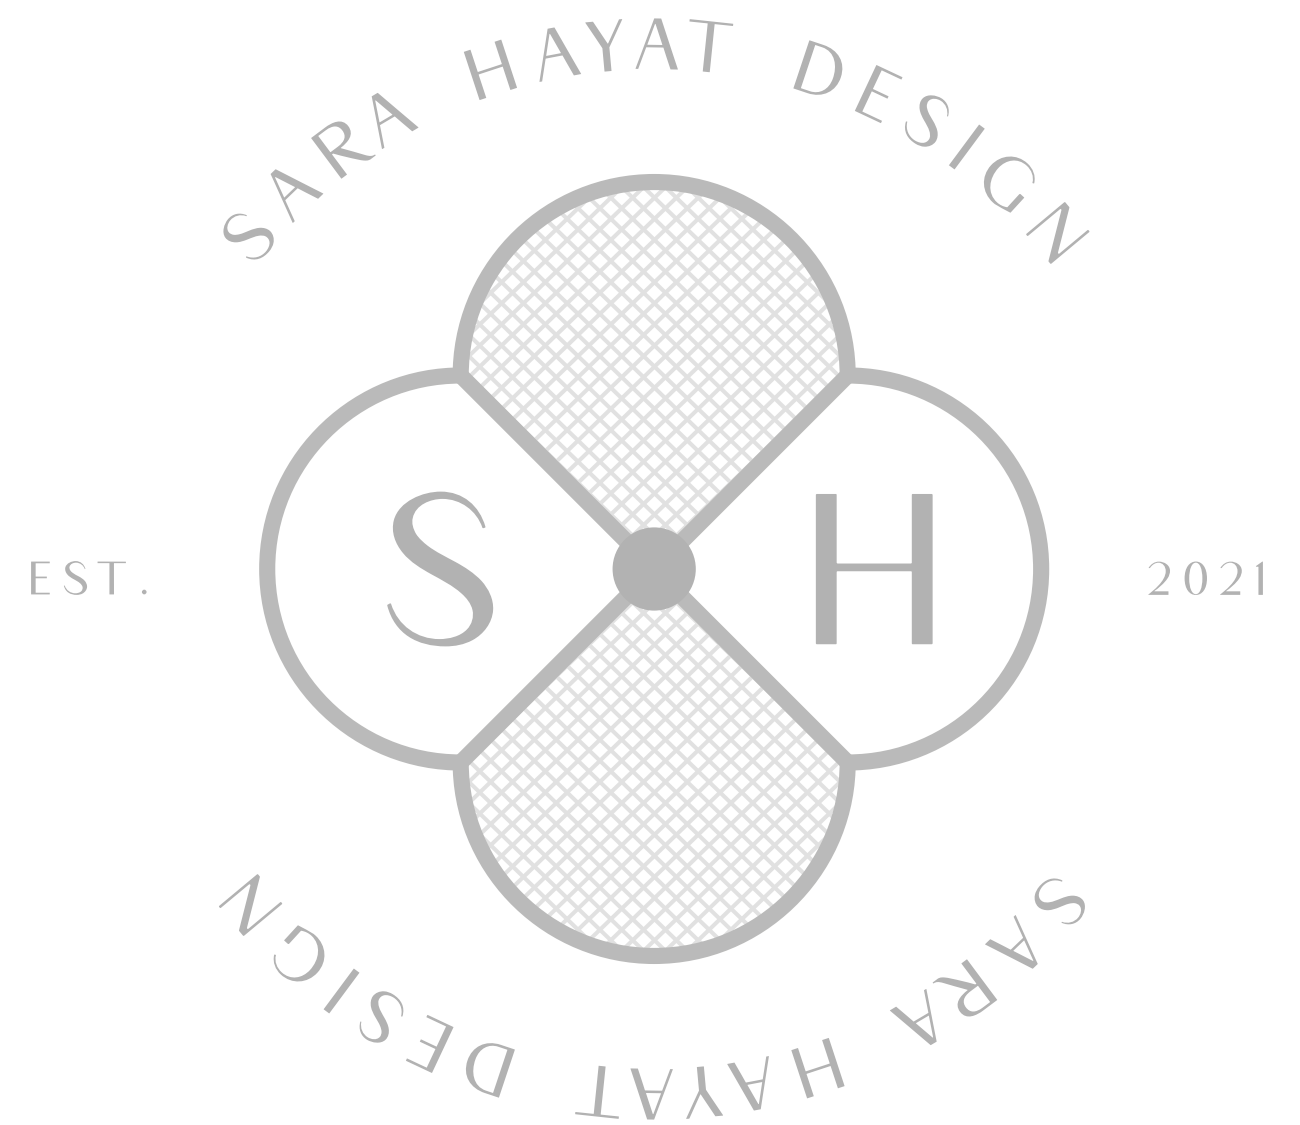

**Product Considerations:**

Fabric and leather dye lots vary; pieces purchased at different times may not match exactly. Most items are handcrafted with meticulous care - given the handmade and hand-finished nature, variations in the woodwork/metalwork are to be expected and celebrated. Variations in the natural veining make each piece of marble, and wood unique. All embroidery and stitching is done by hand. Minor variations are expected. No two items are exactly alike. Marble colors are based on availability.
