

LADDER CARTS

With narrow aisles and hard to reach racking, ladder carts are a staple in the material handling industry. At Rol-Away, our strong, lightweight, and long-lasting ladder carts can be fully customized to fit the specific needs of our customers. While our standard units fit a wide variety of applications, we understand every facility has different needs. At Rol-Away, we have the ability to manufacture ladder carts that are anywhere from one step to over 10 and can include any desired add-ons.

**MODEL S-3-1
TWO-SHELF STOCK PICKER**
Lightweight, 2-shelf cart with 5-inch casters, standard 3-step Lo-Ladder, and Step-Lock.

MODEL S-3-1

**MODEL S-4-1
THREE-SHELF STOCK PICKER**
Lightweight, 3-shelf stock picker featuring Step-Lock, rubber-tired, non-marking wheels, and 3-step ladder.

MODEL S-5-1

**MODEL DT-1
DEEP TRAY STOCK PICKER**
Same as S-3-1 except top shelf is an 8.25-inch deep tray ideal for handling small items.

MODEL DT-1

**MODEL S-5-1
EXTENDED LADDER STOCK PICKER**
High-reach ladder combined with standard Rol-Away cart puts eye level at about nine feet, with reach at ten to eleven feet. Safety rails and non-slip ladder with Step-Lock allow stable high-stack order filling yet unit is compact and maneuverable.
