

model CDL-2000

Chain Drum Lifter

Designed for drum lifting and transporting with an overhead lifting device. Constructed of grade 80 chain for OSHA & ANSI compliance. Easy to use design. Drum clamps include spring-loaded latch for positive drum grip. For use with closed head steel, plastic, and fiber 30 and 55 gallon drums with a top lip.

| MODEL NUMBER | ACCEPTABLE DRUM TYPES | UNIFORM CAPACITY | WEIGHT (POUND) |
|--------------|-------------------------------|------------------|----------------|
| CDL-2000 | PLASTIC, STEEL, & FIBER DRUMS | 2,000 lb. | 9 |

model FDT-22

model DL-31

Drum Lifters

Model FDT-22 can be used to lift both 30 and 55 gallon steel drums with either an overhead chain or hoist. This unique lifting system holds drums securely with a locking safety handle. Steel construction with a baked-in powder-coated toughness.

Model DL-31 may be used to lift 30 and 55 gallon steel drums with either an overhead chain or fork truck. Fork/hook opening measures 5½"W x 2¼"H. Steel construction with a baked-in powder-coated toughness.

Designed exclusively for lifting closed and open-head drums with a scored lid installed.

| MODEL NUMBER | ACCEPTABLE DRUM SIZES | OPERATION METHOD | UNIFORM CAPACITY | WEIGHT (POUND) |
|--------------|-----------------------|------------------|------------------|----------------|
| FDT-22 | 30 & 55 GALLON | CHAIN/HOIST | 1,000 lb. | 23 |
| DL-31 | 30 & 55 GALLON | FORK/CHAIN | 1,500 lb. | 29 |

model TDR-55

Tilting Drum Rings

Easily transport steel drums with your fork truck and the Tilting Drum Rings. Pivoting fork pockets allow you to manually rotate drum to dispense light materials. To use, slip the band over the belly of the steel drum and tighten the lock to secure the band around the belly of the drum. Usable fork openings are 5¾"W x 3"H each. Welded steel construction.
