## Plastic Bulk Shelving & Storage

Largest all-purpose industrial-grade plastic shelving system in the industry. Our unique leg stacker system lets you choose whether to build up, out, or both. Our rigid high-density polyethylene panels are a stout 2⅝" thick with a grid top that allows liquids to flow through, promotes air circulation, and prevents dust build up. Optional drip trays available for different applications. Drip trays hold up to 2.5 gallons. The entire system is chemically resistant, making it an ideal choice for HAZMAT storage or any other applications, corrosive or not.
