

WARRANTY & SECURITY

WARNING TO STAFF

Use of Product: Cero Stone is designed for use indoors, particularly kitchen and bathroom worktops, cladding and other similar uses.

Composition: The material is made up of inorganic mineral deposits (85-95%) including, but not limited to, cristobalite, recycled materials such as glass or other components, polyester (5-15%), pigments and additives (<5%) and 0% crystalline silica in its composition.

There is no provision for any risk associated with the finished Cero Stone product in the CLP (EC) regulation n°, 1272/2008. However, during the manufacturing and installation of the product, it is necessary to consider the following information. Please, read carefully.

MANUFACTURING AND INSTALLATION

Fabricators recommended to manufacture this product by using manufacturing methods that involve the use of water in the manufacturing of this product. Dust derived from the manufacturing processes could contain silica (SiO₂).

Long term exposure and/or mass fraction of respirable crystalline silica may cause severe damage to health including pulmonary fibrosis and pneumoconiosis such as silicosis, as well the deterioration of other lung diseases such as bronchitis and emphysema, etc.

HAZARD: H372 Causes damage to lungs through prolonged or repeated exposure (inhalation).

PREVENTION:

P260 Do not breathe dust generated in the cutting, grinding and polishing processes.

P264 Wash face and hands thoroughly after handling.

P270 Do not eat, drink or smoke when using this product

P284 Wear respiratory protection for particles (P3).

PREVENTION:

P314 Get medical advice/attention if you feel unwell.

P501 Dispose of remains in accordance with local regulation.
