

GOLDEN BONBON™

made in Canada, eaten everywhere

Welcome to a family tradition

Golden Bonbon, established by the Mazzucco family since 1992 in Canada, prides itself in the production of quality candy and chocolates. The Mazzucco family is delighted to be able to share this tradition with confectionery connoisseurs.

The Mazzucco family's reputation as artisans of torrone began with grandfather Giuseppe, a master pastry chef in the city of Asti. His skill and dedication, which involved a laborious nine-hour cooking process, established his reputation as the best torrone craftsman in the city for many years.

With increased demand, his son Riccardo continued the family's work and later set up a successful nougat manufacturing business in Perth, Western Australia. In 1992, Riccardo and his sons Marco and Enrico brought their expertise to Vancouver, Canada.

Golden Bonbon Torrone

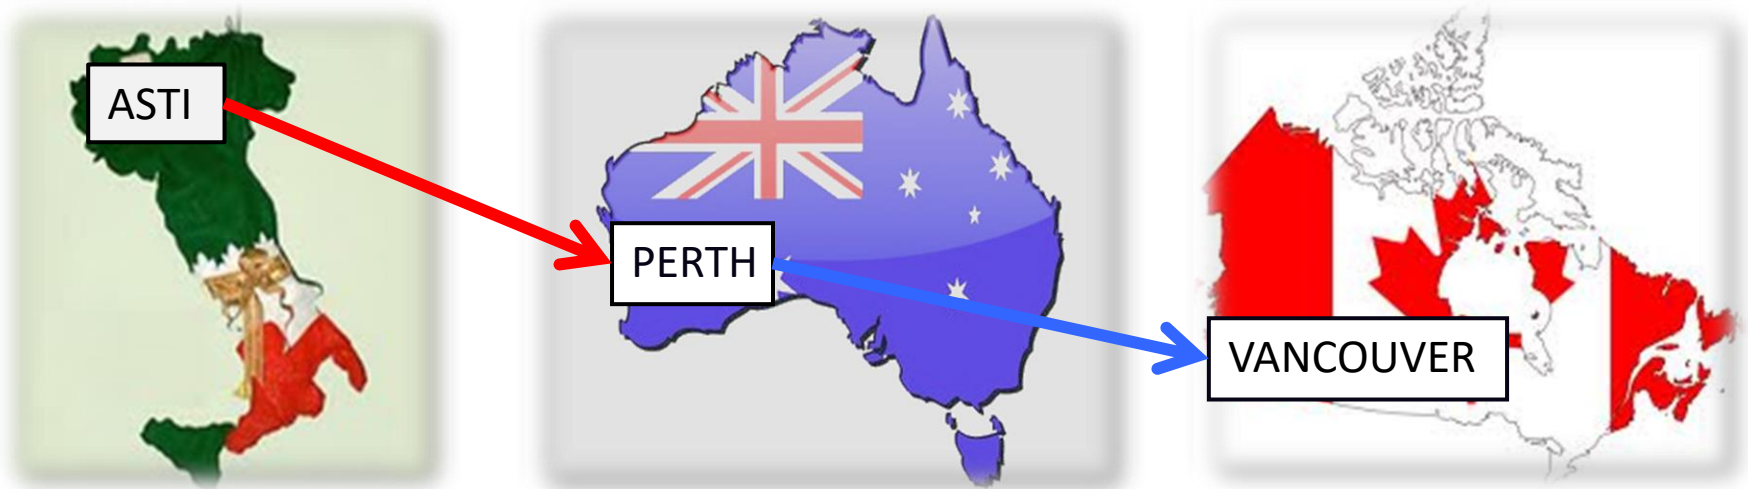

Little has changed over the years. The product is largely hand-made, following a time-honoured tradition and using only the freshest ingredients. Toasted almonds, which form up to 45% of the product's weight, are combined with honey, sugar, corn syrup and egg whites at high temperatures in traditional copper pans. With a unique cooking process, no artificial flavouring, colouring or preservatives are used.

Golden Bonbon torrone is considered among the best and it is all natural and cholesterol-free.

Golden Bonbon products are made to order and guaranteed fresh when delivered.

A family tradition since 1948

Grandfather Giuseppe, a master pastry chef in the town of Asti, developed a secret recipe, which involved a laborious nine-hour process.

Giuseppe's son Riccardo continued the family's tradition and he subsequently set up a successful nougat manufacturing business in Perth, Western Australia.

In 1992, Riccardo and his sons Marco and Enrico brought the family's expertise to Vancouver, Canada.

What we make

Honey Almond Nougat

*full of almond
& real honey*

Nougat d'Or

*Honey Almond Nougat
coated with 45% dark
Belgian Callebaut chocolate*

Jujube Nougat

*a fun &
tasty treat*

Facts on Asti Holdings Ltd.

- Asti Holdings Ltd. is a family owned and operated manufacturer located in New Westminister, B.C. Canada.
- Proudly producing one of the best-selling Nougat in North America for over 30 years under Golden Bonbon brand.
- Using the same family traditional recipes for three generations that only includes simple natural ingredients.
- Proudly serving Canadian tourism retailers for 30 years.
- Honey Almond Nougat are all-natural, gluten-free and Halal certified. It contains no cholesterol or trans fats.

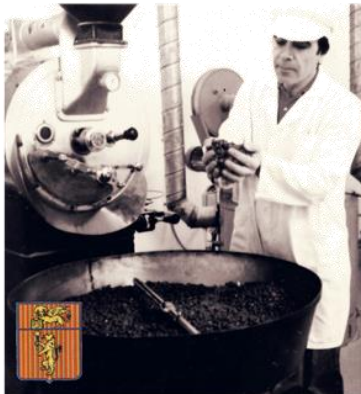

Simple Natural Ingredients

Roasted Almonds-up to 45%-50% of total content

HEART HEALTH

- High in monounsaturated ("good") fat
- No cholesterol or sodium
- A top food source of the antioxidant vitamin E

POWERFUL NUTRITION

- Tree nut highest in six essential nutrients
- Plus protein and fiber

ENERGY

- 6 grams of protein per ounce
- 12 vitamins and minerals
- 13 grams of "good" monounsaturated fats
- Rich in magnesium

DIABETES

- Low glycemic index

GLUTEN FREE

- Naturally 100% gluten free

WEIGHT MANAGEMENT

- Just 160 calories per ounce

Our almonds are hand selected and then air roasted as we have done for three generations. The almonds are roasted to a perfect golden brown. The process takes time and care and each batch is carefully inspected by our master roaster. Air roasting is much better and healthier than oil roasting. The almonds taste fresher and have a distinctive aroma and taste.

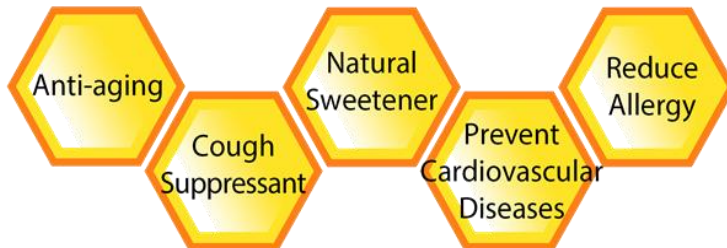

Honey Almond Nougat - *Purest Honey from the Cleanest Land*

The Peace River area in Alberta is one of the most pristine areas on earth. Fresh air, clear water and cloverleaf flowers make this the perfect habitat for honeybees. A healthy ecosystem guarantees the quality of our honey.

Clover honey is one of the most well-known and recognizable types of honey, which has a natural fresh grassy, flowery aroma. People call it "Miracle Food".

Almond Nougats with Blueberry and Cranberry

Blueberries and cranberries are the kings of antioxidant foods.

- Antioxidants maintain brain function and improve memory.
- A great source of fiber, a nutrient important for a healthy digestive system.
- Packed with vitamin E and anthocyanin, great for your visual health.
- Low in calories but high in vitamin and mineral.

Blueberries and cranberries are native to North America.

Perfect climate and growing condition for berries.

They are available all year-round in British Columbia, Canada.

We use blueberries and cranberries from local farms in Vancouver which is home to the largest berry producers in Canada.

If you need just one more reason to eat berries - they are sooooo yummy !!!

Maple Syrup

Maple syrup's nutritional value is superior to other common sweeteners, such as honey, sugar, and even brown sugar and it also has lower calories.

Manganese

Plays an important role in energy production and antioxidant defenses

Riboflavin (Vitamin B2)

Aids in the metabolic process

Calcium

Strengthens bones and teeth

Zinc

Essential for a healthy immune system

Magnesium

Associated with lowered risk for coronary heart disease

Potassium

Helps maintain normal blood pressure

Almond Nougat with Sea Salt Caramel - A luxurious adventure in taste!

Featuring two premium ingredients from France

Guérande Sea Salt

The most prized of all sea salts

Guérande sea salt - harvested from Brittany, France - is rich in magnesium and trace elements because it is neither treated nor refined. It obtained exclusive PGI designation (Protected Geographical Indication) in 2012 which guarantees the origin and quality of the sea salt from this region.

Normandie Cream

France's crème de la crème

Normandy is the heartland of French dairy production. Its mild maritime climate and lush, green pastures are ideal for dairy cows. Normandy milk is exceptionally high in butterfat and boasts a delicious and unique character. Normandy cream is a luscious, thick cream with a distinctive tangy flavor.

always keep cool & dry for the best taste

⇒ Honey Almond Nougat Line:

Below 75°F / 24°C

⇒ Nougat d'Or Chocolate Coated Nougat Line:

Between 41°F / 5°C to 75°F / 24°C

⇒ Jujube Nougat Line:

Below 82°F / 28°C

Shelf Life & Lot Code

12 months shelf life.

If products are exposed to the heat and humidity in the stores, almonds can become stale and taste will be compromised. In order to avoid quality issues **product rotation is very important.**

Over time soft nougat can become dry and harder and conversely crunchy nougat may become softer and stickier if not stored properly.

For **overseas markets** and **with proper refrigerated shipping** and storage, we can extend best before date up to 15 months

How to read our Lot Code

Lot Code 111001811

means nougat is produced in the 100 days of 2018 (April 10th, 2018)

(31+28+31+10=100)
