GISOVU**

**ABOUT THE FARMER**

**Rwandan Nymasheke**

Gisovu is a special coffee harvested from three regions in Rwanda: Kilimbi, Gisheke and Rugali which all feed into a washing station in Nymasheke. The whole region has rich volcanic soil which is fantastic for coffee tree production with higher yields and more juicy, sweet cherries.

The washing station is set so high up in the mountains that it's only accessible by boat and if you're lucky enough to venture there, you might spot some farmers swimming their cows from one riverbank to the other!
