Power Window Regulator

Part Number: 251-837-461/2

Our aftermarket power window motor must be bolted to the regulator while the regulator is outside of the door. To insert the assembled motor and regulator into the door:

- 1) Remove the isolation mounts (shown right) from the regulator.
- 2) Bolt the motor onto the regulator.
- 3) Insert the regulator assembly into the door through the lower hole on the forward portion of the door (shown right).

NOTE: *While maneuvering the regulator into place, take care not to bend the cables where they meet the regulator gear box. Rough handling may damage these cable retainers.*
