Instructions for Vanagon Exterior Table Mount

Step 1: Loosen upper knob and remove support tube.

Step 2: Insert support tube into table mount.

Step 3: Be sure support tube notch is facing up.

Step 4: Insert support tube into rear Vanagon jack port, pushing in all the way. Insert lock pin through holes in support tube, just behind front portion of jack port.

Step 5: While raising up on support tube, screw foot disk firmly against ground.

Step 6: Insert table leg.

Step 7: Loosen and retighten upper knob when adjusting table position.

Step 8: Also loosen and retighten knob under tabletop when adjusting table position. (Be sure table does not hit van.)

Step 9: On soft ground, place board under foot disk.

Don't forget to remove your Exterior Table Mount before driving away!
